

God Still Heals

CBC Colorado Ecuador Team 2015

Dear Mickey & Susan - This was the report we gave to the students yesterday. It was awesome to see blind eyes open, deaf ears open, lame walk, and the dead 12-month old boy raised from the dead. 28 people received Christ, 44 people were infilled with the Holy Spirit, 135+ healings.

Other notable healings: The mother of a 6-mo. old baby girl who had a distorted hip and one leg shorter than the other came for prayer. The baby wasn't with the mom. 2 days later the mom came back to the same church where we were ministering to show us her baby girl. Her hip had been x-rayed, showing the hip was perfect and her leg grew out. Awesome!

A lame, blind and speech impaired man about 35-yrs. old with a rare brain disease. All symptoms immediately improved when we prayed, and the man came up out of the wheelchair. He wants to pastor a church as testimony to his healing.

An autistic boy about 10 yrs. old had to be helped to the prayer line where his eyes were rolling around in his head and he couldn't hold his head or stand straight. After prayer, he was perfectly normal; he smiled and walked on his own and started playing with other kids.

An elderly woman had a serious accident leaving her with a head injury for 2 yrs., and chronic head pain and blindness in her right eye. After prayer, all pain was gone and she could

see clearly out of her right eye. She began weeping and praising God.

When we placed our hands on the sick, we were placing His hands on the sick. When we opened our mouths to declare the truth about the gospel, we were speaking His words in our mouths. All glory and praise goes to Jesus, in the power of the Holy Spirit.
